Caesarstone

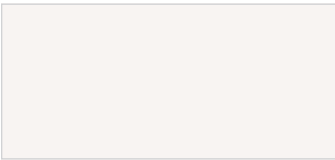

Quartz Jumbo Slabs.

At Caesarstone, we're committed to the growing needs of homeowners. Larger islands, wider countertops and other special home interior projects often require a larger slab size to minimize or eliminate seams.

Made in North America, Caesarstone jumbo slabs are 64" x 131" and come in an assortment of 23 colours to help make your dream kitchen come to life. Looking to feature Caesarstone in multiple areas of your home? Jumbo slab sizes provide additional surface material to use in other spaces of the home in a cost-effective manner.
